

Cellevolve Announces the Expansion of Its Founding Leadership Team

Tom Spencer, PhD appointed to Chief Technical Officer

Aston Ying appointed as Chief Data Officer

SAN FRANCISCO, CA., March 1, 2022--Cellevolve Bio (“the Company” or “Cellevolve”), a development and commercialization company focused on cell therapies, today announced the addition of two industry veterans to its founding leadership team: Tom Spencer, PhD, Chief Technical Officer and Aston Ying, Chief Data Officer.

“We are delighted to add two remarkable senior leaders to our growing leadership team at Cellevolve,” said Dr. Derrell Porter, Founder and Chief Executive Officer, Cellevolve. “Tom’s demonstrated proficiency in cell therapy manufacturing and operations management is mission-critical for optimizing our day-to-day output and building our model. Furthermore, Aston’s strategic development experience within the cell therapy space will be imperative for our Cellution platform and transforming the overall patient experience, both in clinical development and commercially.”

Dr. Tom Spencer joins Cellevolve as its Chief Technical Officer and brings deep expertise in advanced therapeutics manufacturing and operations. Tom has over two decades of experience building and leading teams across leading life science organizations, academia and clinical institutions. Dr. Spencer earned both his Bachelor of Science and Doctor of Philosophy degrees from Virginia Tech in Biochemistry.

“I am so happy to join a team of innovators looking to advance cell therapies for patients in need and eagerly look forward to playing an impactful role in accelerating the cell therapy revolution,” said Dr. Tom Spencer, Chief Technical Officer, Cellevolve.

As Cellevolve’s Chief Data Officer, Aston will utilize over 20 years of experience in the development and implementation of patient-centered technologies to enable Cellevolve to realize the potential of its Cellution platform. Aston’s previous successes within the biopharmaceutical and cell therapy space include leading initiatives with Oracle, Saama, Salesforce, and IQVIA. Aston holds a Bachelor of Science degree in Management Information Systems from the University of Arizona.

“It’s an exciting time to join the leadership team at Cellevolve, a cell therapy company that shares my passion for accelerating the delivery of life-saving medicines through novel technologies,” said Aston.

About Cellevolve

Cellevolve is a development and commercialization platform company focused on cell therapy. Our mission is to accelerate the transformation of breakthrough science into life changing treatments. Founded by leaders with extensive experience developing and launching therapeutics, we understand that cell therapy innovations require unique and specialized capabilities to advance them to approval and beyond. We are addressing this need with a highly integrated development and commercialization platform that translates inventions from our world-class collaborators into products for patients.
